QUARTER OF A CENTURY.

CRAWFORD'S MONUMENTAL WORKS

1855

1881

I take the present opportunity to thank the people of Buffalo and the surrounding country for their liberal patronage, by which I have been enabled to establish here a Manufactory of

FINE MONUMENTAL WORK.

Beginning in a small way on the 15th of April, 1855, I have, in the past TWENTY-SIX YEARS, during which my works have been in the same place and under one name, endeavored to do the work entrusted to me to the best of my ability, and I now have in 1881 facilities for furnishing the very best work in the most economical manner.

I use annually over three hundred tons of granite, from the best quarries in the United States. My work is all done here and gives employment to quite a number of mechanics, and also permits the purchaser to view his work during its entire progress to completion. My attention now is wholly given to MONUMENTAL WORK, and I have constantly on hand a large stock of Monuments and a full line of plans embodying all the principles of art applicable to the trade. I respectfully solicit the favors of former patrons, and the orders of the public for Monumental Work, which I now have better facilities than ever before to execute to the entire satisfaction of all, and I give all orders my personal superintendence.

JOHN CRAWFORD,

Nos. 167 to 169 Niagara St., BUFFALO, N. Y.

ANNOUNCEMENT FOR 1881.

THE Publishers present the issue of the BUFFALO CITY DIRECTORY for 1881 with a sense of having discharged their obligations to the fullest extent possible. Without claiming unqualified accuracy for it, they feel that they have warrant for submitting it to the public as the most complete publication of its kind the city has known. The innumerable obstacles that are always found in the way of the canvassers have been overcome as far as possible, and, it is thought, with a degree of success not hitherto attained. As a result, the list of names and the classification of them represent a liberal use of means and faithful and intelligent work.

The Street Directory will be found far more comprehensive and accurate than that of last year, the re-numbering of certain streets, which were without the proper numbers in 1880, helping materially to this end.

The various departments of THE DIRECTORY have been compiled and classified with the greatest care and will be found unusually full and satisfactory.

The Publishers note with pleasure the increase in the population of the city, than which no better proof of its increasing prosperity could be offered. The present issue contains 52,500 names, as against 50,000 names in 1880, representing a population of between 167,000 and 170,000. Public and private enterprises continue to thrive apace, and the evidence is conclusive that Buffalo, in the not far-distant future, will attain to a position which the most hopeful and patriotic of her citizens had not permitted themselves to look for.

STREET AND AVENUE DIRECTORY.

EXPLANATION.

It will be noticed that in this Street Directory the names of the streets are set down in alphabetical order, giving the course which they run, according, as near as possible, to the points of the compass, and enumerating all streets which cross the same in the order in which they occur. The streets in the city were renumbered in 1895, and the following method was adopted, to wit: From the starting point of the street, measuring along the line of the street twenty feet; then making No. 1 to the right-hand side, and No. 2 to the left-hand side, and so on, each twenty feet, whether there be a building or a vacancy, or a street crossing. The number on one corner has been given, so that a person wishing to find, say, 499 MAIN STREET, on consulting the Street Directory, finds that the right-hand corner of Main and Mohawk is No. 487, consequently, the place he seeks is only a few doors above.

THE REVOLVING PERCH BIRD CAGE

Patented Sept. 21, 1869; Nov. 26, 1872; April 3, 1877; Re-Issued Nov. 13, 1879.

A PLAY-HOUSE FOR THE WORLD'S PET.

The pleasure and joy furnished "Our Charmer" by the New Revolving Perch is wonderful to behold. Any Canary will learn to work them in a very short time, and once learned, it is surprising to see the amount of exercise a bird will take. These elegant and useful Cages have already become very popular. We know of many instances where dealers who handle our Revolving Perch Cage, have largely increased their sales, by placing in their show windows one of the cages with a bird inside to operate same.

The Revolving Perch is so new, that unless people see it in practical operation, they fail to appreciate what a charming novelty it is; or the great advantage to the bird in the way of exercise, which all Canaries require to keep them healthy, and constantly in song.

THE CATHOLIC UNION

A WEEKLY EIGHT-PAGE JOURNAL,

DEVOTED TO

*Catholic Interests, and Catholic and General
Literature and News.*

PUBLISHED EVERY THURSDAY

BY THE

CATHOLIC PUBLICATION CO.

This admirable and enterprising paper is the organ of the Diocese of Buffalo, and is largely read in this city and the neighboring cities of Rochester, Lockport and Elmira—and indeed all over Middle and Western New York—for it is the only important exponent of Catholic opinion in this portion of the State; from this as well as from the style and ability of the paper itself, it is the acknowledged medium of address to Catholic thought throughout this extensive district.

Though Catholic in tone and object, as becomes the official organ of the Bishop of Buffalo, it is not confined to purely Religious topics, but goes out to meet every discussion of the day, has independent views, and not unfrequently has taken the position of a leader of thought on subjects of general interest.

The Editorial Department is devoted to the Religious, Political, and other interesting issues of the times. Its ability in this department has long been recognized.

This paper was organized under the auspices of Right Rev. Dr. RYAN, Bishop of Buffalo, is conducted by a clergyman distinguished for literary taste and ability, and is under efficient business management. It fulfills exactly the ideal of a CATHOLIC publication, and is excelled by none throughout the country that assume the title.

*The "Union" is a valuable Advertising Medium, being the only Catholic
Paper published in the English Language in Western New York.*

The Telegraph is the brightest and ablest Afternoon Paper in the State of New York. It has been a phenomenal success from its inception. It is rigidly independent in politics, as in every other relation. Commanding large resources, it has no need of political patronage.

ITS OPINIONS CANNOT BE BOUGHT.

It is the newsiest paper in the State. It receives perfect Telegraphic service, and its local department is unapproached. Its Editorials are keen and pointed. It says what it thinks and means what it says. It presents the history of the whole world each day in a nutshell. Its Circulation is immense and constantly increasing.

EAGLE COPYING PENCILS

Patented, June 26, 1877.

MADE IN FOUR GRADES AS FOLLOWS:

"No. 1. **EXTRA COPYING**" (very soft), a substitute for ink. Letters written with this grade, can be copied in the usual manner by slightly dampening the *copying paper*; it is also excellent for *marking linen*.

"No. 2. **GENERAL COPYING**," for universal use. Being of *medium softness*, in order to produce a good plain copy from letters written with this grade, the *copying paper* should be *thoroughly dampened*; it may also be used for marking linen.

"No. 3. **MEDIUM COPYING**," for office use. This grade being *medium hard* is intended for *order books and memorandums*; the writing *will not erase or blur* by the pages of a book rubbing together; to produce a good copy, the *copying paper* requires to be quite *moist*.

"No. 4. **NON-ERASIVE**," for *reporters and stenographers*. This grade being, *very hard and smooth*, is more *durable*, and will *hold a point longer* than any other pencil of *equal smoothness*; it is the *best* for marking *fine fabrics*; a copy can be *obtained* by making the paper extra wet without removing the surplus water.

DIRECTIONS FOR MARKING LINEN, &c.

Any of the foregoing kinds may be used for marking linen; the No. 4 being especially adapted for marking *very fine fabrics*.

TO PRODUCE A GOOD RESULT,

first dampen the cloth slightly with water, and then write upon it as with any other pencil.

TO MAKE IT LASTING,

after being marked, *iron it well* before *washing*.

The No. 1 we make in automatic style only.

Nos. 2, 3 and 4 we make in automatic style, also encased in wood.

Eagle Automatic Pencils, patented March 25th and May 20th, 1879.

The *automatic style* is particularly suited for this class of pencils, therefore, is *especially recommended*. Sold by Stationers, Druggists and Notion Houses throughout the United States and Canada.

NEWSPAPER ADVERTISING AGENCY

In Buffalo, begs to announce that he has leased for a term of years, the entire third floor of the new block,

Nos. 12, 14, 16 and 18 EAST EAGLE STREET,

Opposite the Young Men's Association Building and St. James Hall.

THE NEWSPAPER ADVERTISING AGENCY will as heretofore, be under the immediate personal supervision of Mr. E. H. HUTCHINSON, whose six years' experience in every detail of the business, renders him fully qualified to protect and advance the interests of his patrons. Advertisements will be inserted in any newspaper in the United States or Dominion of Canada, at the publishers' lowest rates *without any additional charge or commission*. Estimates on the cost of advertising in any newspaper the advertiser may select, *furnished free of charge on application*. An advertiser dealing with the Agency, is saved trouble and correspondence, making one contract instead of a dozen, a hundred or a thousand. Consult this Agency before placing contracts. Orders are taken for a single paper as well as for a list; for a single dollar as readily as for a larger sum, and all contracts are promptly executed.

In connection with the Advertising Agency, Mr. HUTCHINSON, in 1877, established his

BOOK AND JOB PRINTING DEPARTMENT,

which in the new quarters will remain under the direction of Mr. H. C. SEARLOW, who has been with Mr. HUTCHINSON for the past four years. In this department every description of printing for Societies, Manufacturers, Merchants, Bankers, Insurance and Business Men generally, is executed with neatness, promptness and despatch, at reasonable rates. Particular attention is paid to the reading of proofs, and every care taken to avoid mistakes and insure accuracy in the work.

PRINTERS' MATERIAL DEPARTMENT.

Mr. E. H. HUTCHINSON has also made arrangements with one of the largest manufacturing and jobbing houses in the trade to handle their extensive line of Advertising Cards, and is prepared to furnish printers and publishers with the latest designs at New York prices, thus saving them cost of transportation. A full line of samples constantly on hand.

Mr. HUTCHINSON also offers for sale at lowest prices, all kinds of Printers' Materials, including Job Presses, Metal and Wood Type, his own brand of "Keystone" News and Job Inks, Roller Composition, Scherman's Detergent for washing forms, Burris' Patent Alarms Counter, "Ella City" Line Shapers, "Eureka" Lead and Grog Rack, Paper and Card Cutters, and a full line of Printers' Paper and Card Stock, all of which the trade are respectfully invited to examine. Price list sent on application.

Merchant's Gargling Oil Liniment is good for human and animal flesh.

1841. 40 YEARS OLD. 1881.

87 BRANCH OFFICES.

THE MERCANTILE AGENCY

R. G. DUN & CO.

The Reference Book will be issued promptly in the first week of July, and delivered to Subscribers. It will contain nearly 850,000 NAMES of Traders in the United States and Canada, with their business, and an estimate of their worth, and an indication of their credit-standing. This coming issue will be the 54th Volume of this work; the Mercantile Agency being in the 41st year of its existence. This Agency, which commenced business in New York in 1841, is older than any competitor by many years.

Its 87 Branch Offices in every city of any size in this country and Europe, are more than double the number of any other agency. This large number of established Branches enables this Agency to report the country in a most thorough and reliable manner, as evidence of which can be taken the fact that the Reference Book contains by MANY THOUSANDS MORE NAMES than ANY OTHER BOOK. The Book gives the Population of each place, and Banking Town for each place.

We present each Subscriber, in separate form, with a

POSTAL AND SHIPPING GUIDE

For the Whole Country, prepared under the personal supervision of E. W. Bullinger, whose aptitude, experience and facilities for the work are unsurpassed. An investigation will convince anyone that this Shipping Guide is infinitely superior to any Guide published by our competitors, or others. It shows the Freight Lines from Buffalo to any place in the United States or Canada. The Reference Book also shows the County Towns of every State in the Union. Also, Official Statements of All Insurance Companies; Collection Laws of each State; Assignment or Insolvency Law of each State; Sittings of Courts in each State. Also, Laws of the States where Licenses are required by Commercial Travelers. The Agency employs directly Over One Thousand Clerks and Traveling Reporters, and has in its employ many thousand resident correspondents. It expends annually Over a Million Dollars in procuring and recording information for its subscribers, which at a safe calculation is at least several times as much as has ever been disbursed in the same business by any competitor, living or extinct.

Full particulars as to subscription may be obtained at the Office, Nos. 11 and 13 West Swan Street.
